AIDE - HELP

Item	Description
JMP Help	Opens the JMP Help system.
Books	Opens .pdf files of the JMP documentation.
Sample Data Library	Opens a list of JMP sample data tables.
New Features	Opens the New Features .pdf file for the main JMP release.
JMP User Community	Opens the JMP User Community web page community.jmp.com .
Tutorials	Opens a set of JMP tutorials.
Tip of the Day	Opens the Tip of the Day window, which provides tips about using JMP.
Statistics Index	Defines statistical terms, opens online Help, launches analysis platforms, and lets you run scripts that illustrate the terms.

Scripting Index	Defines JSL functions, JSL objects, and display box elements. Several search options are available. You can also run examples and read online Help for the components. Above the list of commands, select All Categories to search all functions, objects, and display box elements.
Sample Data	Opens the Sample Data Index window, which provides links to sample data tables, sample scripts, and sample applications. Many sample data files include scripts that you can run to see examples of JMP tools and analyses. You can also run the sample scripts themselves to see examples of JMP tools and analyses.
Renew License	Lets you select a new license file to renew the license. Available only in annual license copies during the grace period and before the license expires.
About JMP	Displays product version, registration, user and system information, the JMP web page link, and more.
